

St. Joseph's/Candler, Heartwood and WSAV's Buddy Check are bringing MOBILE MAMMOGRAPHY TO RICHMOND HILL! October 11th, 1 p.m. to 6 p.m.

ON-SITE 3D MAMMOGRAMS

Patient Eligibility

- The American College of Radiology recommends an annual screening mammogram beginning at age 40.
- Women 35-39 years old should check with their insurance provider for plan eligibility and coverage before the screening.
- Must not have had a mammogram in the last 12 months (**confirm coverage with insurance provider if less than 12 months**).
- You have seen a gynecologist, primary care physician, or internist within the last 18 months, who is willing to accept your screening results.
- You cannot be pregnant or breastfeeding.
- You do not have implants or breast issues (such as a lump or discharge from the nipple area). **Patients should promptly contact her physician for evaluation if experiencing breast problems.**
- Annual screening mammography is a covered benefit under most insurance plans. For exact coverage, women should check with their insurance company, as there may be a copay deductible. For your convenience, we will file a claim with your insurance provider on your behalf.
- **Women who are uninsured or underinsured may be eligible for a free mammogram:** SJ/C Mobile Mammography together with the SJ/C Mammography Fund provides no-cost great cancer screening and diagnostic services for those who meet income guidelines.

To learn more or complete an application, contact the SJ/C Mammography Fund Helpline at 912-819-7055.
